Quarterly family publications for the following families.....

THE THREE BELLS.....material from all states. Published since 1980.

CHILDRESS CHATTER..material from all states, some from England. Published since 1979.

JOHNSON QUARTERLY..material mostly from southern lines. Published since 1991.

ROGERS ROOTS.....mostly southern lines, but does include some northern. Published since 1983.

All of the above newsletters are published Jan., Apr., Jul., & Oct. Free queries to subscribers. All back issues are available at \$12.00 per year (4 issues). Sorry to say, none are indexed.

New subscribers are requested to send copies of their FAMILY SHEETS when subscribing. This lets me list an ancestor along with the subscriber name and address for the benefit of all subscribers.

I also maintain a depository for research material for these families, to keep information for future generations. The material will, at some later date, be placed in a library or University, where this material will be at the disposal of all. You are urged to place your material in this depository.

You will be notified if a request is made for information about your family, but to do this I need YOUR information.

PLEASE SEE INSIDE BACK COVER.....

Please send copies of your _____ family information. This information is placed in my files for referrals to others, who may be searching your line also. You will be informed when an inquiry comes in for your ancestor and put in touch with that person. The more complete your info... the better chance you will have to make a connection with an interested researcher.

Ancestor charts are great BUT family sheets are better. Look at all the names on a family sheet, compared to the one listing for each head of family and spouse found on the ancestor charts. Also, if you have copies of wills- census-marriage listings- a lineage you have picked up in your research, or other material you would like to share, I would appreciate copies of these also. We ALL gain by sharing information...information which also can be used in future issues of this publication. With everyone sharing info...we all benefit. I have also formed a depository for this family info.

When you send in your information, I will search my files for your ancestor.

AND A GRAND TIME WAS HAD BY ALL..... just wish everyone had had the chance to be at the Annual meeting of the Childers/Childress Family Association which was held the weekend of Oct. 4. It was great seeing old friends and meeting new ones. To put a face with the names we have all become familiar with was a treat.

The meeting began on Friday evening with a social and lots of CHILDERS/CHILDRESS material and talk. We had a lady from Clayton genealogical library give a talk on locating and researching the CHILDERS/CHILDRESS family, which was very interesting. She took a map and filled in with color the states where the CHILDERS/CHILDRESS families were located. This gave you a clear look at the areas involved.

Saturday morning began with a bang.....we all brought material to share. I brought all 8000 pages of material I have accumulated over the past ??? years (35 years in all). This material was easily used by all and we had two copy machines going all the time. Jane Hamilton had certainly covered all aspects of such a family gathering and she is commended for a job VERY well done. It was thru her efforts that we had access to these two computers which were on loan from a computer company here in Houston. These computers were loaned without charge.

Also at the meeting....I brought the wall chart of the CHILDERS/CHILDRESS family as we have it to date. This chart was the center of attention and with the future plans, which I'll talk about later, maybe we can begin to PROVE some of the lineages we have all put together. After all....PROOF if what we need and desire. We need to com to some final decisions on some of the statements made thus far. Along with the chart I had made up a workbook, which has all the information in it as does the wall chart. With this work book, we all can have the opportunity to join in the making of a lineage which will be as accurate as we can get it.

On the chart, and in the work book, every person is given a number and that number will stay with him, as does our social security number in these days. If Abraham is mentioned by any of us....he will be identified with his number, which for Abraham who married Ann "Jane" HOWARD....his number being #15. There are many other Abrahams and this will help to identify WHICH Abraham we are speaking of. On page 4 & 5 you will see further info as to how this work book will work.

I wish I could just send everyone a copy of the workbook without a fee, but that is not how this world works....The workbook sell for \$10.00 + \$2.00 shipping and handling.

connection made by a new member. This gentleman was Ted Childers of Collinsville Oh. He happened to be in Tx and came to the meeting, searched the wall chart and found 4 new generations he did not know of. You should have seen his face! We had Saturday evening for a meeting on nothing but the chart and made a few notations on certain points, questioned certain parts and made some positive conclusions on some of the information. Everyone who bought the workbook at the meeting will get some notes on it in the near future.

We had a wonderful "Bar-B-Que" in our meeting room and a meeting after. Here I will blow my own horn.....I was presented with a commendation for outstanding donations to the futhering of CHILDERS/CHILDRESS research. It was very nice to be acknowledged this way. I was also made an Honorary member of the CHILDERS/CHILDRESS Family Association. Thank you one and all.

The elections were held for the ensuing year, those elected were: B. Miller Childers, Pres., Elizabeth Mynatt, Sec., Anne Auggiero, treas. It was decided that the family Association will meet next year on 3-5 Oct., at Columbia SC. Watch for further info on this in the coming year. This will be our 16th annual meeting.

Start saving your quarters (used to be pennies) and make plans to be at the meeting. I promise you, you will have a great time.

At the meeting we asked everyone to take on a particular person from the chart and see how far they could go in PROVING that line. Those who took the challenge were:

Reta KING 16019 Buccaneer Ln. Houston Tx. 77062

- Researching ALL William CHILDERS/CHILDRESS (any spelling). Reta has really taken on a big job and needs all the help she can get. If you have ANYTHING on ANY William, please send her a copy. If you would like to help Reta on these Williams, just let her know. I'm sure she could use the help.

Reta is also taking on any Philemon CHILDERS/CHILDRESS.

Jerry KULBETH 6922 LaPuente Houston Tx. 77083

- Jerry has volunteered to be the expert on CHILDERS/CHILDRESS research in the state of Arkansas. If you need information on families in Arkansas, write Jerry and see if he can help you.

NOW...the purpose of all of this is to help establish final PROOF of statements made in the past concerning different lineages. With the help of us all, let's make a gun-ho effort to get this done. We can all help...do your part and I'll do mine and let's see what we can accomplish.

Send a copy of all the material you have in your files to the following as per their interest:

Elizabeth Mynatt - ALL John's of Va...(Surprise Liz, gotcha!!)

Garland & Leda CHILDRESS - ALL Philips...anywhere.

Virginia Hanks - ALL Henry's, in Va.

Reta King - ALL William's - anywhere, anytime.

ALL Philemon's - anywhere, anytime.

Jerry Kulbeth - any Childers/Childress info located in Arkansas.

AND pop-goes-the-wezel.....let's see what happens.

If you would like to take on a challenge as those above have, let me know. I'll pass the word on thru the Chatter what name or location you are taking on. Anyone want Thomas or Goolsby or Robert ...how about a particular Sarah!! HEY.....who wants ABRAHAM??? Do remember, you don't have to do a particular name by yourself...find someone who will help you and maybe two or three of you can take on Abrahams....

The final outcome of all this work will be as follows: When you have come to some answers, found some proofs and are ready to submit your findings to be presented for inclusion on the wall chart, this info will be published in the Chatter for questions and acceptance. I have such great expectations.....just hope it works out.

Here follows the page telling of the workbook and how it works.

A workbook for use in reesearch of the CHILDERS/CHILDRESS family was first presented by me in Issue 37 - July 1988. This is an updaed version and one which I hope will continue for time to come. I need help with this venture as well as many others who are doing CHILDERS/CHILDRESS research. I would like to think my work will be enhanced by future generation and you can help by expanding on the enclosed info.

There can be many others who will make a connection to this workbook and add several generations to their research. Now let me explain the procedure:

There are many family groups represented in this workbook. I KNOW there are mistakes made along the way and some of these mistakes have been corrected in the past and more are to be done. This material is NOT written in stone and IS "rift" with errors but between us all, these can be corrected.

Lets use the page for 15. Abraham CHILDERS (this is HIS workbook number and his ONLY.) On his page you will find "Generations" showing his line back to _____ CHILDERS. Below that is name of spouse. Next is W.W. which is a place for the date and location of when his will was written, also W.P. which is for when and location of his will probated. Next is a brief on the life of Abraham (this is so nice when it can be more fully explained- where he lived - mention of any siblings - pension applications - all of these give better info on Abraham and the same info could be given for his wife.

Nex are listed each of his children - each with their own appointed number. Later on this page will be any corrections or questions concerning this family. On Abraham's page, I added some remarks as made by Dennstedt who has done a wonderful job with the CHILDERS/CHILDRESS family. You will want to compare ALL versions of information and do your own source listings

There is an asterick beside some names - this indicates there is a family page for that person and you will find him/her through the personal number appointed to them.

As corrections/additions become available to particular families, there will be another sheet made for that person with the PROVEN corrections made on it and everyone who has one of these workbooks will be sent a NEW sheet for that person. If you put this workbook in 3-ring binders, you will be able to remove an old sheet and replace it with a new one.....or what will be even better.....you will be able to insert pages for NEW families as they are presented..

If you cannot connect to any of this workbook as yet, but would still like to have your family included, we could place your family in the back (of course there will be NO numbers appointed to them until they connect to the existing lines). To do this you MUST have your material copy ready (typed with at least a one inch margin on all sides) using the format I have used so far. Please make it brief to begin with until I see how many will respond to this idea.

REMEMBER.....YOU MUST SHOW YOUR SOURCE FOR ANY IDEAS OR CORRECTIONS.

Source: National News in GREENE COUNTY, MS HERALD, February 16, 1906. "Oklahoma City, Ok., February 11, 1906: Doctor A. T. G. Childress, the physician who is attending Miss Agnes "Bossie" Mulhall stated at 8:30 this evening that his patient's condition is not as favorable as it was this morning, although there is a marked improvement over yesterday.

Acute jaundice and gastritis caused extreme nausea. Miss Mulhall has taken no nourishment in ten days.

Doctor J. A. Ryan, of Oklahoma City was called to Mulhall yesterday to hold a consultation with the attending physician. Doctor Childress's bulletin tonight is as follows: "'Bossie" Mulhall has been in comatose condition since 1:30 P. M. Her wonderful nerve and outdoor life give her a great chance for recovery. No change in her condition in twenty-four hours. There is one chance for her life in twenty. The patient realizes her condition when conscious. Four A. M. will determine the outcome.'

Doctor Childress

Miss Agnes Mulhall is the eldest daughter of Colonel Zack Mulhall, the Oklahoma ranchman. Miss Mulhall is essentially a creature of out of doors. Her pets are among the "cow ponies" of the ranch, the fiercest of which she rides without difficulty. She gave an exhibition of roping and tying steers at the St. Louis Exhibition, and was guest of the most fashionable people in the city. She is a personal and favored friend of Miss Alice Roosevelt, Colonel Mulhall having been uner Col. Roosevelt in the San Juan Campaign.

Miss Mulhall's present illness is due to injuries she received a few weeks ago when a pony she was riding reared and fell backwards upon her."

Included in this volume is Major H. Tatum's Journal while acting as Topographical Engineer in 1814 to General Jackson, commanding the 7th Military District, pages 148 - 224.

Note: The following account is paraphrased because it covers too many pages to give verbatim.

During the War of 1812 when Andrew Jackson was on his way to New Orleans he came through Alabama to subdue the Creek Indians and the Spanish at Pensacola, Florida. A day to day account of General Jackson defeating the Spanish and their British helpers was recorded by Major Tatum.

At the Spanish Fort there were four British armed vessels ready for battle to help the Spanish defend Pensacola. The four British vessels were the Hermas & Carron Sloops of War mounting 22 32 - 1b and 6 8 - 1b carronades each and the Brigs Sophia & Childress mounting 18 18 - 1b, long guns each.

On the 12th of September 1814 the Americans moved in to take the Spanish Fort. A battle occurred. "The action was fought with great bravery on both sides until 8 P. M. when the spring on the cable of the

Hermes being cut away, she wore ship head on upon the shore and grounded in which situation she received from the Fort a most destructive raking fire. The ship was abandoned fired upon and blew up. The remaining three ships also slip their cables and made off with all speed, the Carron and Sophia in a situation not to be envied. The commander of the Childress had behaved more prudent and kept aloof from danger. She may be said to have made her escape without a wound."

The Childress was mentioned again November 7th 1814. "The British under the command of Major or Colonel Nichols of the Marines, with a few Spaniards, occupied the Spanish Fort on the preceding day and Nichols was the person that caused the flag to be fired on. The British Frigate Sea-Hock, the Carron Sloop of War, the Childress Brig and a Spanish Corvette lay opposite the Town as near in with the shore as water would permit. The British embarked ... leaving part of their stores on the shore."

Note: It would be interesting to know the owner and commander of the Childress Brig. The above article will probably be of no help to our Childers-Childress Family. It was interesting to me because my people lived in Spanish West Florida. We still live in the same area.
